EMBU

DEAR HIRING MANAGER,

Hello, I am a graduate of Jeremiah Nyaga National Polytechnic located in Riwika-Embu with a Diploma in Information and Communication Technology. I am writing this letter to be among the staff of this firm, due to my course in IT I have experience in it as expressed in my CV. Why should I be considered?

I am dedicated and skilled in IT and keen on developing strategies that drive success and have a measurable impact on the firm. Teamwork will enable the firm to go far and I'm good at team working sharing ideas. Majorly I focus on programming, also I'm capable of any IT duties and any duties that are assigned to me by my superior whether related to IT or not. When considered in the firm my impact will be able to be seen. I'm confident that I can be a great asset to the firm and contribute to its growth and development. I'm ready to take on any task or challenge that I'm assigned and I'm committed to doing the best work I can. I will be excited to join the team and help move the firm forward.

With Best Regards,

Samwel Karanja.
