SKILLS

Web programming that is good in HTML, Visual Basic, CSS, C++, C, PASCAL, JavaScript and PHP Fast Learner
Angular frame work
Networking
Junior Software Developer
Good communication skills
Team player
Computer Skills
Trustworthy
Program Evaluation
The dream of becoming a full stack developer and a software developer excites me.

At the moment, I'm a full stack developer who is a freelancer and have worked on building one project, a bus booking system.

ACHIEVERS COLLEGE
 AUGUST 2022 – DECEMBER   2022
I reapplied back in Achievers and I was given an opportunity. Worked at Achievers College as an attaché for Four months
My duties in Achievers where I mainly specialize in teaching programming Languages;
- Computer packages
- Computer maintenance
- C Programming
- C++, HTML, PHP, C PROGRAMMING, VISUAL BASIC and CSS

ACHIEVERS COLLEGE
AUGUST 2021 – DECEMBER 2021

I worked as a Lecturer at Achievers college where was placed in ICT department and I was able to offer the following services
- C Programming
- Computer maintenance
- Computer packages

PROJECTS

In 2023 I built an online bus booking system using HTML CSS JavaScript and PHP and here is the link to my project https://github.com/SamwelKaranjaN/Bus-Booking-System

PROFILE SUMMARY
Samwel is a graduate of Jeremiah Nyagah National Polytechnic located in Embu County and graduated in Diploma Information Communication Technology with Credit. My willingness to listen and learn is what made me finish my course. I'm more excited to apply what I've studied in class to a real-world environment to find practical, actionable solutions to current needs. I am also a self-directed and motivated graduate. Since I am new to web programming, I am prepared to discover more while in the field. This is not just about web programming and software development, but also about any other new roles and tasks held by the company. Besides what I have learned, I am ready to come up with new ideas for the company. I am also a person who can comfortably complete various tasks within a given period to keep operations running smoothly. In addition, I am very passionate about what I do. I strive to do my finest for all the responsibilities and tasks I have been assigned. Taking responsibility and committing to work is something that cannot fail.
